METAMORPHOSIS - MEDIATING - TRANSLATION

Having worked with Aleksandra on a few occasions, my experience of her movement and art is at once transformative, yet matter of fact. She embodies a clarity and richness that is compelling. Being thoroughly rooted and grounded in the human form, Aleksandra has the preternatural ability to transcend the mundane and evoke the images, impressions, and patterns that comprise a reality that parallels our own, but clearly encompasses more. She is totally dedicated and committed to her art and its place in her life.
